When the meeting was called to order there were by actual count 549 persons in the theatre, of whom twelve were women. A band played "Dixle" as the speakers filed upon the stage, and then James E. Heath, in a capital speech, introduced "the candidate."
Mr. Heath harked back to the days

of the Fitzhugh Lee struggle, and de-Virginian by Mr. Martin for the United States Senate was nothing less than a crime, especially when General Lee was a national figure and Mr. Martin 'an unknown.'

Triology Fares Roughly.

indeed, that illustrious triology roughly at the nands of the peakers. His allusion to Woodrow Wilson as the New Jersey Insurgent. who had swept clean the mosquito State, set the crowd a-howl. Every one cemed to be a friend or Wilson's, alhough as between Jones and Martin here was a division.

Jersey.

"When Senator LaFollette made his fight for the Senate against the Republican machine of his State," he said. his best frends regarded it as hopeless. Every daily newspaper was against him save only two, and the machine purchased the editorial space in 400 other papers.

"Out of eleven dailies in Milwaukee, only one supported him. The railroad corporations joined hands with the means with which to debauch the press, but contributed all the money that could be used in the purchase of individual votes. The Republican administration, too, employed its Federal patronage to the same end. The mominal party organization lent itself to the will of the machine.

"What was the result? LaFollette carried every one of the seventy-une counties, and in forty-two of them he carried every district. Out of a total of 2022 precincts, he carried 1,225 and tied his opponent in thirteen, and in thirty-eight his opponent did not receive a vote.

Let Them Take Courage.

"If there be any faint-hearted Democrats here, let them take courage from this story of what one man can accomplish, whose cause is just and who has behind him brave and honest men who helieve in that cause and are willing to fight for it.

The victory achieved by Woodrow Wilson over the machine of his State, backed as it was by the corparations which flourist there as nowhere else, is of too recent occurrence to need to the told of by me. New Jersey has

sof too recent occurrence to need to be told of by me. New Jersey has awen her answer through her brillant Governor to the question produced to the Democrats of the country at large in the last national Democratic platform.

"Shall the people rule?" What, may ask, will be the answer which Virginia will give? If you ask me if I hall win this fight, for my answer point you to what has been accomplished in other States, where the odds were far greater than in ours, and I invoke for your inspiration and ourage the glorious history of old virginia."

Clifton Forge, Va., March 29.—Promptly at 9 o'clock this morning the 127th annual session of the Baltimore Conference of the Methodist Episcopal Church, South, opened, and from that time until the morning meeting adjourned at 12:20 o'clock the body was kept busy every moment. The session was presided over by Bishop E. E. Hoss, of Nashville, one of the men who has seen service for years in the Methodist Church.

As a presiding officer Bishop Hoss is inclined to push business, while showing consideration for those who have any remarks to make on matters before the session. For his opening address he took for his subject, "Judgo Not, Lest Ye Be Judged," and he made an exceptionally able talk. His voice is good and his devilvery is straightforward and clear, and can be readily followed by all.

The informer, recognizing a trick to impair his testimony, raised his voce above the chorus, yelling:

"I never said that Cortino's brother was a Camorrist."

The confusion continued and the president was compelled to suspend the sitting.

The policy of the accused is to catch Abbatemaggio in contradictions or untruths, if only in secondary matters, and so discredit his whole story.

To the question of the president of the court as to whether he suffered from epilepsy, Abbatemaggio replied in the newative.

The bishop introduced to the conference Dr. Ivey, the new editor of the Christian Advocate, of Nashville, who addressed the meeting upon the desirability of church members taking church papers. At the present time only about one family in four of the members of the Mathodist Church take a church paper.

A number of reports were submitted and referred to the appropriate committees without being read.

The report of the Baltimore Southern Methodist showed that it had paid all of its current expenses, and plought that the question of the future financing of the paper was easy of solution.

RICHMOND HOMES TO BE HEATED BY NEW PROCESS. INVENTION WHICH PROMISES TO REVOLUTIONIZE MODERN METHODS OF HEATING.

Everybody Will Soon Be Using the Gem Oil Burner.

The writer yesterday saw a new invention which, when introduced, cannot help but revolutionize the methods of heating cook and other stoves. It is the Gem Oil Burner, exhibited by Barnhisel, of the Willoughby Company, and what it will do is surprising. The principle of the burner is that common kerosene or coal oil is converted into gas, which mixes with 90 per cent. of air and 10 per cent. of carbon gas, passing through the burner and producing a long, superheated blue flame of intense heat, free from smoke and odor, as well as free from dust and ashes arising from the use of wood or coal. oal, Mr. Barnhisel is located at 720 East

Mr. Barnhisel is located at 720 East Main Street, five doors west of Hotel Stumpf, for a few days, representing the Gem Oll Burner Company, of Willoughby, O., where he will be glad to exhibit the invention to any one. It may be put in any stove without changing or damaging the latter in the least, and after it is in will heat the largest cook stove or range sufficiently for family cooking for \$1.00 per month. It has a decided advantage over wood, coal or illuminating gas, especially the great advantage of economy, with none of the disadvantages of wood or coal, and is just what is needed for comfort and efficiency. The company is soon to put these burners in the hands of agents, who will retain them at about \$12 aplece. To get them started in this vicinity, one may buy direct from the manufacturer, free on board cars at Willoughby, for half that sum for the next few days, during which time an agent will be appointed. Whether one wishes to buy or not, it is worth one's while to visit the store to see this ingenious invention.
